Book overview

Description Editorial reviews

Words are powerful when they are used correctly. If readers want to motivate their kids or employees, convince bosses to give them a raise, speak with confidence to large groups of people, or give a report that won't leave people snoozing, *How to Talk So People Will Listen* is the classic resource they need. Expert communicator Steve Brown shows readers how to speak with authority, win an argument, overcome their fears of public speaking, and more.

Give great speeches, win arguments, and have better conversations with anyone
Reviewed in the United States on June 6, 2021
This isn't like any book on public speaking you've ever read. We're communicating all the time. On the platform. Online. In conversations with friends, strangers, and coworkers. You'll learn how to make your words count, what strategies to use, and what to do... See more

Absolutely worth reading
Reviewed in the United States on November 17, 2009
I'm a relatively new teacher for kids in my church, and I often struggle with "how to talk so they will listen." This book has given me some very good insight on not only teaching, but in everyday conversation with people I find hard to converse with. My Pastor actually... See more

How to talk
Reviewed in the United States on August 22, 2021
There were some great ideas and hints in here for speaking well. I would have liked to see some deeper information on giving speeches.

Wordy and a bit sexist
Reviewed in the United States on January 10, 2023
This book was very wordy and in my opinion not good. I am reading it for a class I am taking called "presenting the gospels" . I found it to be sexist and a little too "old white guy" for my taste. There are references to "white speech" and using a more "feeling tone" when... See more

This book is great and I have tried it and I listen
Reviewed in the United States on April 13, 2015
This book is great and I have tried it and I listen. BUT it seems no one but no one listens at all. Even when sharing about bad news from a Doctor or test results. Usually they start telling about their problems. Even when I email and they may return the email a week or so... See more

Great advice book for speech giving and more!
Reviewed in the United States on March 16, 2020
The advice given in this book coaches the reader to be a good speech giver, but the advice encompasses other pursuits that one wants to excel at. It flows with great tips that is presented with frankness and humor.

A good read but with too much detail to be really practical
Reviewed in the United States on March 31, 2014
The section I got most from was how to make a good speech. Although the information was useful, I had no idea the level of preparation needed to make a good one. So even though I enjoyed the anecdotes and sage advice especially to do with how to listen correctly given in... See more

Helpful but......
Reviewed in the United Kingdom on February 12, 2017
Really hate to say this but..........an awful lot of words to get the very very useful and helpful points across ! A lesson from your own book Steve.......kis keep it simple. kir. keep it relevant. kim. keep it moving. But......it'll always be on my shelf ! Thank you.
